2025

# Working Together

A thriving community is one where residents can support themselves and their families. Our passion is to help people during emergencies or crises. We serve our community directly and indirectly collaborating within the community and through our network. We believe education, training, sufficient income, and understanding health issues are important for individuals and families.

Working together we can meet people's basic needs and strengthen our community by addressing these and other life issues. One of our goals is to provide support and create strong opportunities for personal empowerment.

## Schedule Highlights

1

### AFFORDABLE HOUSING

Join us for a vital conversation and update on the pressing issue of affordable housing options in Hamilton County. Your voice matters in addressing this critical issue; together, we can make a real difference in our communities!

2

### MENTAL HEALTH SERVICES

We firmly recognize that the demand for mental health services is at an all-time high. This session will deliver definitive strategies to confront and address mental health concerns head-on, ensuring we make a meaningful impact on the well-being of our communities.

3

### VOLUNTEERISM

Explore an enriching opportunity with specialized volunteer training. Participants will engage in interactive sessions, gain practical experience, and learn best practices for impactful volunteerism within our communities. This session includes training for churches, nonprofits, and the Hamilton County COAD (Communities Active In Disasters).
